**Belt Sizing Information**

- Belt Size:** Please send us a tape measure size.
- For Pants Belt:** Remove your regular belt and wrap the tape measure loosely around your pants at the belt line. This should give you an accurate pants belt size (This may be 2 inches larger than your pants waist size)
- For Gun Belt Size:** Wrap the tape measure around and over your regular pants belt and read the size. (This size may be 3-4 inches larger than your pant size, this is an average fit.)
